

PRE-SERIES A · INVESTOR DECK

NYUMBASEARCH

Building the trusted operating layer for home discovery, tenancy and home services in Africa.

PROPTech

HOUSING

DIGITAL SERVICES

nyumbasearch.com Nairobi, Kenya August 2026

Africa's full-stack proptech platform – from search to move-in and beyond.

NyumbaSearch connects people to verified homes, simplifies tenancy management, and enables trusted home services in one ecosystem.

Trust layer

Verified listings, owner validation, scam-risk signals, and optional site inspections.

Transaction layer

Rent workflows, tenancy portals, contact unlocks, and service-provider discovery at housing moments.

Monetization layer

Subscriptions, listing boosts, SaaS for managers, service-provider tiers, and financial referrals.

Expansion layer

Nairobi-first, scaling across Kenya and African urban markets through partnerships.

Finding a home is still fragmented, costly and risky.

1 · Fragmented discovery

Listings scattered across agents, social groups and classifieds with inconsistent data.

2 · Expensive trust

Renters waste time and money on inaccurate, stale or unavailable listings.

3 · Journey ends too early

Most products stop at the listing — not tenancy, rent, or maintenance.

4 · Owners lack modern tools

Small landlords and managers need better lead capture, workflows and visibility.

The opportunity

Own the user relationship before, during and after the move.

"Is it still available?" · "Can I see it today?" · "Never replies..."

Common renter pain points observed in Nairobi housing search — informal channels, low response rates, weak verification.

One platform for the complete housing journey.

For tenants

- Map-first discovery with neighbourhood signals
- Verified listings and direct contact
- Home services at move-in

For landlords & managers

- List, reach qualified tenants, manage portfolio
- Rent tracking and operational dashboards
- Team tools and analytics

For service providers

- Verified directory with 24+ categories
- Leads timed to housing moments
- Subscription tiers for growth

Live product on nyumbasearch.com – not mockups.

- Map-first search
- M-Pesa-ready rent flows
- 214+ service providers
- Finance & insurance entry points

Early traction with growing supply-side network.

August 2026 snapshot — product live, multi-sided, and operational.

Signal today: verified supply density, working manager portal, services marketplace, and multi-neighbourhood inventory (Kilimani, Westlands, Karen, Ruaka, and more). Revenue and retention shared in diligence.

Large, growing market — ready for digital infrastructure.

Three interconnected customer segments – Nairobi first, Kenya next.

Tenants & home seekers

PRIMARY DEMAND

- Students & young professionals
- Families relocating within Nairobi
- Mass market, high frequency, mobile-first
- Monetization: Plus, contact unlocks, referrals

TAM slice: urban renters in Nairobi metro

Property owners & managers

SUPPLY & RECURRING SAAS

- Individual landlords (1–10 units)
- Property managers & agencies
- Developers & student residences
- Monetization: subscriptions, boosts, PM SaaS

Highest LTV segment at scale

Home service providers

MARKETPLACE & LEADS

- Movers, cleaners, repairs, security
- Internet, solar, laundry providers
- Verified demand at move-in moment
- Monetization: tiers, lead fees, ads

214+ providers live today

Four revenue layers – recurring at the core.

1 · Landlord & listing plans

KES 999 – 4,999 / month – visibility, lead management, premium placement. Free tier for onboarding.

2 · Property management SaaS

KES 2,000 – 10,000 / month per portfolio – rent collection, invoices, tenant workflows, dashboards.

3 · Service provider monetization

KES 1,500 – 5,000 / month – directory subscriptions, qualified leads, category sponsorships.

4 · Financial & protection referrals

Revenue share on mortgages, insurance, loans, and rent-protection products at housing intent moments.

Estimated annual revenue at full sector activation **ESTIMATE**

USD 2.5M – 4.5M+ when listing SaaS, PM tools, services marketplace, and financial referrals are all active across target markets.

Path to USD 4.8M annual revenue by Year 5.

ILLUSTRATIVE MODEL – ASSUMES PHASED MONETIZATION ROLLOUT, NOT A FORECAST COMMITMENT.

Beyond listings — integrated housing platform.

Capability	Property24	Lamudi	Jiji	Social groups	NyumbaSearch
Verified listings workflow	Partial	Partial	✗	✗	✓ Productized
Map-first discovery	✓	✓	Partial	✗	✓ Core
Scam / risk signals	✗	✗	✗	✗	✓ Built-in
Property management SaaS	✗	✗	✗	✗	✓ In-platform
Rent collection (M-Pesa)	✗	✗	✗	✗	✓ Productized
Home services marketplace	✗	Partial	Partial	✗	✓ 214+ live
Financial services integration	✗	✗	✗	✗	✓ Referral paths
End-to-end tenancy tools	✗	✗	✗	✗	✓ Full journey

Advantage = combination of trust, operations, services and local Nairobi focus — not a single-feature claim.

From early traction to market leadership.

Where we are today

AUG 2026

Verified homes	263+
Neighbourhoods	182+
Service providers	214+
Users / tenants	132+
Listing accounts	24+
Lead actions	109+

Live product, operational dashboard, manager portal, services directory.

3-5 year potential

TARGET

Verified homes	10,000+
Active users	50,000+
Property accounts	2,000+
Service providers	1,000+
Annual revenue	\$2.5M – 4.8M
Geography	Kenya → Africa

Regional expansion with partnerships driving supply density.

Strategic partnerships accelerate supply, trust and distribution.

Student residences & universities

Campus housing listings, semester bookings, parent verification, bulk supply from hostels.

Bank & financial institutions

Rent payments, mortgages, tenant loans, landlord SME banking, M-Pesa integration.

Property owners & developers

Verified digital distribution, portfolio onboarding, PM tooling for multi-unit operators.

Corporate & HR housing

Employee relocation, expat housing, corporate lease management, bulk tenant placement.

Service provider networks

National mover/cleaner/repair networks, category sponsorships, move-in bundles.

Insurance & protection

Tenant contents, landlord property, rent protection – referral at move-in moment.

Partnership categories – specific contracts subject to diligence. Finance/insurance referral surfaces already live on-site.

Building supply and demand simultaneously.

Supply acquisition

- Direct landlord & manager outreach
- Developer & student residence partnerships
- Agency onboarding with ops approval
- Service-provider directory growth (214+ today)
- On-ground verification & quality control

Demand generation

- SEO & product-led web discovery
- Social & community distribution
- Student & young-professional networks
- Referral loops between tenants and owners
- Bank & corporate partnership channels

Flywheel: denser verified supply → better search → more tenant activity → stronger owner conversion → richer services & monetization.

Phased growth from product-market fit to regional scale.

2026 · Q3-Q4 PMF & Nairobi density Manager portal, rent workflows, services growth, first bank conversations.	2027 Monetization scale Paid plans adoption, PM SaaS rollout, student residence pilots, app launch.	2028 Kenya expansion Mombasa, Kisumu, Nakuru; corporate housing; financial referral revenue.	2029-2030 Regional platform East Africa cities, 10K+ homes, partnership-led supply, \$4.8M revenue target.
